PROFESSIONAL SUMMARY

Full stack web developer with over 12 years of experience designing, developing, and leading the creation of complex web applications and services. Proven track record of success in diverse environments, from startups to large corporations, utilizing a wide range of technologies including Symfony, Laravel, Node.js, and React.

WORK EXPERIENCE

• SysRq

Company Owner / Senior Developer
Feb 2023 – Present

Responsible for the design, implementation, and development of a wide range of websites and internet services utilizing Symfony, Laravel, MySQL/MariaDB/PostgreSQL

• Home.pl

Senior Full Stack Web Developer
May 2022 – Jan 2023

Engaged in diverse projects within the Innovation Lab, overseeing various tasks and contributing to the development of innovative solutions.

- **Mediart Software House**

Team Leader

Jan 2021 – May 2022

Led the creation of modular monoliths and microservices using Symfony and Node.js. Designed database schemas for MySql & PostgreSQL. Spearheaded a major refactoring initiative to incorporate essential features, transitioning procedural JavaScript to full OOP, and optimizing database queries from 1 minute to 2 seconds.

- **Souvre.com**

Senior Full StackWeb Developer

Apr 2020 - Nov 2020

Collaborated on a CRM for a company serving approximately 100,000 clients. Technology stack as usual.

- **Freelancer**

Full StackWeb Developer

Jan 2017 – Apr 2020

Completed numerous small to medium-sized projects, consistently utilizing a technology stack comprising PHP (Symfony), MySQL, JS, and React Native for mobile applications

- **Agnat (domena.pl)**

Senior Full Stack Web Developer

Jul 2015 – Jan 2017

Contributed to a system for managing domains and clients for a leading domain registry company in Poland, ranked 5th in the industry. Employed a standard technology stack with the addition of PostgreSQL.

• Grupa Alias Software House

Team Leader
2011 – 2015

Managed a team of developers and designers. Utilized technologies/tools such as Docker, Git, Jira, PHP 5, Zend Framework, CodeIgniter, PHPUnit, REST Api, SOAP Api. Developed a CMS project that was subsequently implemented in various projects, both small and large. Additionally:

- Developed a payday loan system featuring a full CRM, automatic notifications for repayment delays, and comprehensive statistics and forecasts.

- Created an accreditation system used in several events, including the 2013, 2014, and 2017 FIVB Volleyball Men's World/Europe Championships, achieving successful deployment.
